## Welcome to WebCareer!

WebCareer provides all the necessary services for you to become a web designer. We offer services such as resume help, training sessions and referrals.

Come and grab this opportunity! Register yourself today with our agency!

### Meet our CEO!

Navnee Mundboth

CEO & Founder, WebCareer

University of Toronto

"Once I graduated from university with my double major in CCIT and Computer Science, I did not know what I wanted as a job. Then I told myself, "Why not help others get a job?" And here I am!"

#### Previous WebCareer Client

I recently migrated to Canada and was applying for a web design job here. However, I sent my resume numerous times to employers but I did not get any reply. I registered with WebCareer and they helped me with my resume. Thanks to them, I was able to get an entry-level position at XYZ Designing. I trust WebCareer!

#### Current WebCareer Client

I was previously a graphic designer and I wanted to change my career to web designing. I was looking for a crash course to acquire some basic skills and hopefully get an entry-level web designer position. I registered in WebCareer's basic level course and the course was very useful. I landed a job at PGR Enterprises and I love my job! I am currently taking advanced web designing courses at WebCareer.

#### Previous WebCareer Client

WebCareer does nothing other than a fantastic job and 100% satisfies its clients. I totally recommend this company!

## Want to strengthen your networking? Meet the right people!

At WebCareer, you have the opportunity to meet employers and people who can become important referrals to you. We organise meetings on the last day of our training sessions. If you are not registered in a training session but still want referrals, you can attend this event by registering through the agency first.

Attending through training session: Free

Attending through agency and a WebCareer client: \$20 entrance fee

Attending through agency and not a WebCareer client: \$30 entrance fee

**Registration is currently closed.**
